

M300

Notesbooks in the past were for office use only, but today they are gamer and multimedia PCs. Xilence offers a mobile USB notebook cooler to prevent these high performance notebooks from over heating. The integrated 140mm fan is powered by the notebooks USB port. Ideal escort when travelling!

Features:

- Protects your netbook from overheating and thus extends the lifetime of the device
- 1x quiet-running 140mm fan provides optimal cooling
- Very slim and handy - ideal companion for travelling
- Air permeable full-metal-mesh cover for a great optic and better cooling
- Suited for notebooks up to 40cm (15,4")
