750W | 1000W

The third generation Xilence power supply units - exciting design, latest technology and top quality. In the current revision, every power supply series has been completely revised. The results are not only impressive due to the high-efficiency technology, but also due to the new design and even better equipment. The Modular Series gives you the free choice - you choose which cables you need. This provides for more space and at the same time improves the air circulation within the case. The modular power supplies are equally suitable for gaming PCs and for workaholics. Due to the increased energy efficiency, the power packages are even cooler and quieter.
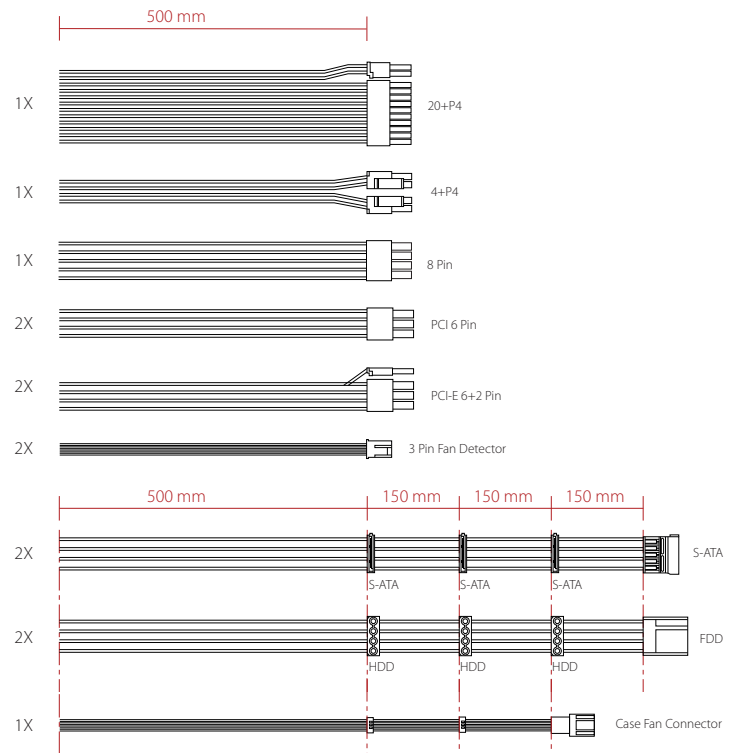

Features

• Highly Efficient: Saves Energy 80 PLUS® certified
• Modular Cable System: Improves Internal Air Flow
• Whisper-Silent Cooling: big 135mm fan
• Powerful & Reliable: Optimal Performance
• Smart Fan Function and Easy-Out Plugs
• Active PFC

Technical Data

	AC INPUT	DC OUTPUT	
750 Watt	240V	+3.3V	28.0A
		+5V	28.0A
		+12V1	32.0A
		+12V2	32.0A
		+12V3	32.0A
		+12V4	32.0A
		-12V	0.5A
		+5VSB	3.5A
1000 Watt	240V	+3.3V	28.0A
		+5V	28.0A
		+12V1	20.0A
		+12V2	20.0A
		+12V3	33.0A
		+12V4	20.0A
		+12V5	20.0A
		+12V6	33.0A
		-12V	0.5A
		+5VSB	3.5A

Cablemanagement

1X		20+P4
1X		4+P4
1X		8 Pin
2X		PCI 6 Pin
2X		PCI-E 6+2 Pin
2X		3 Pin Fan Detector
